Introduction to Sets

Braille Cards • Mathematics • Grade 7

Dot patterns are drawn so you can check them and use them with a braille embosser. Please have a braille reader check them before classroom use.

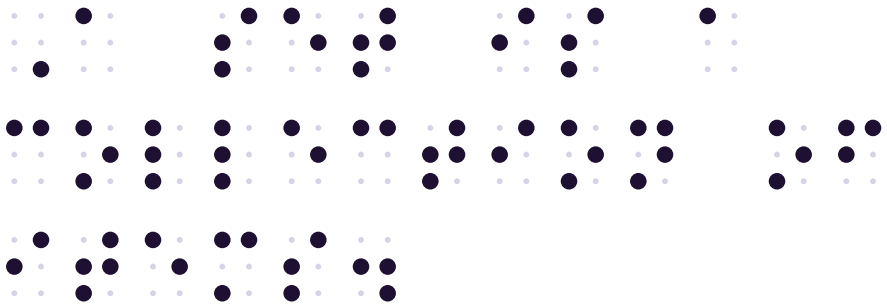

Title

Introduction to Sets

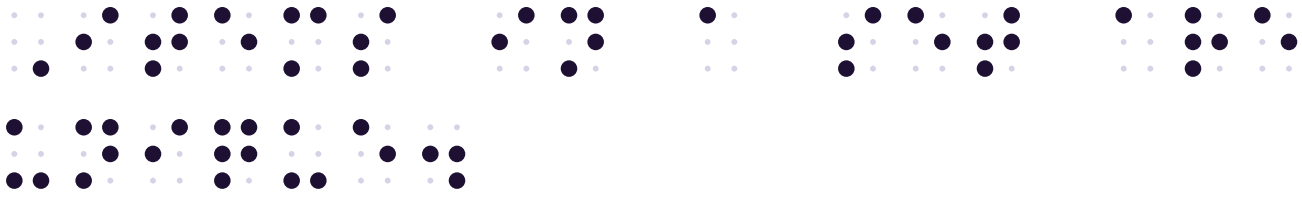

Key point 1

A set is a collection of items.

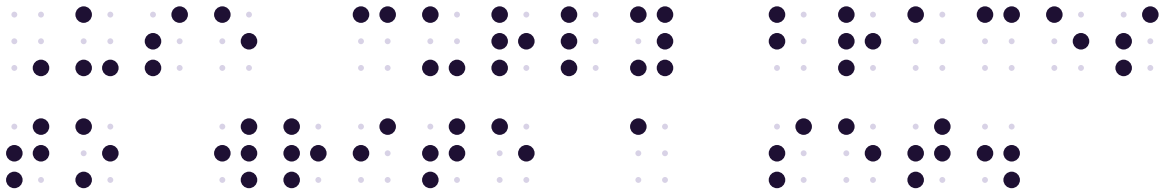

Key point 2

Items in a set are unique.

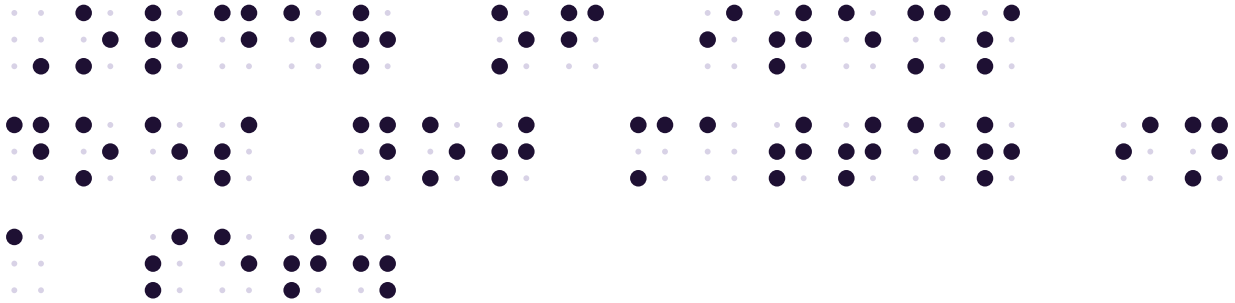

Key point 3

Use curly braces to write a set.

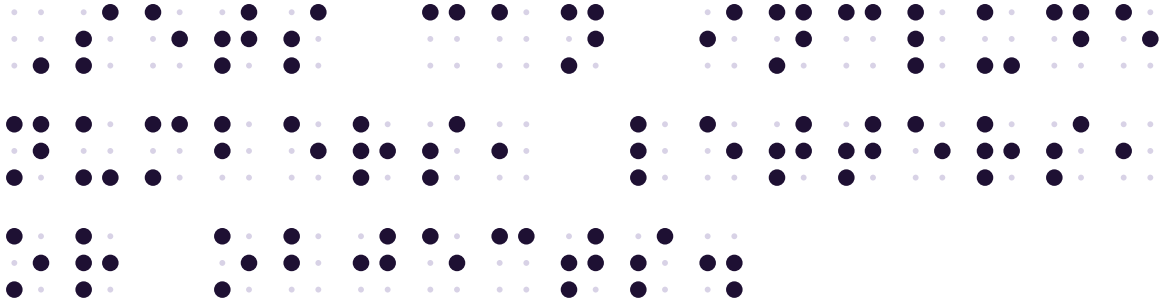

Key point 4

Order of items does not matter in a set.

Key point 5

Sets can include numbers, letters, or objects.

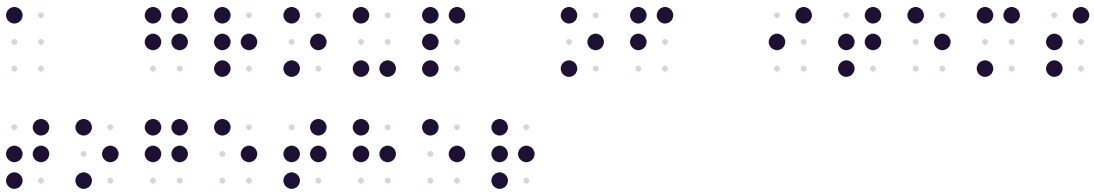

Key word 1

set

a group of items together

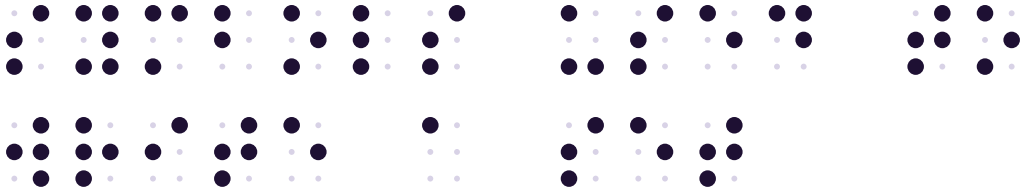

Key word 2

curly braces

symbols { } used to write a set

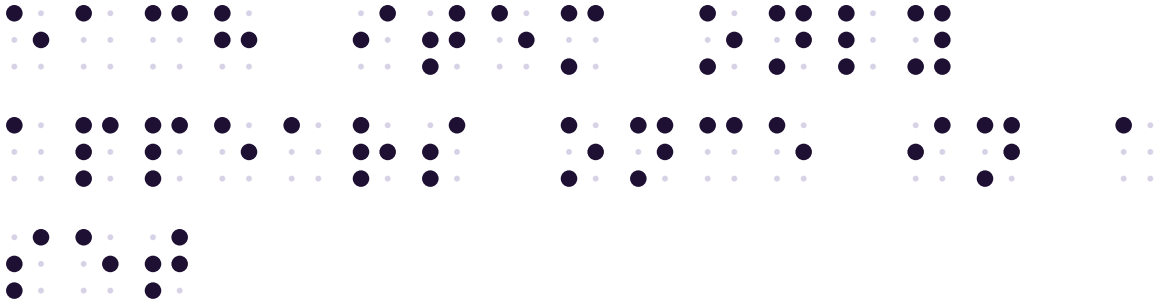

Key word 3

unique

each item only appears once in a set

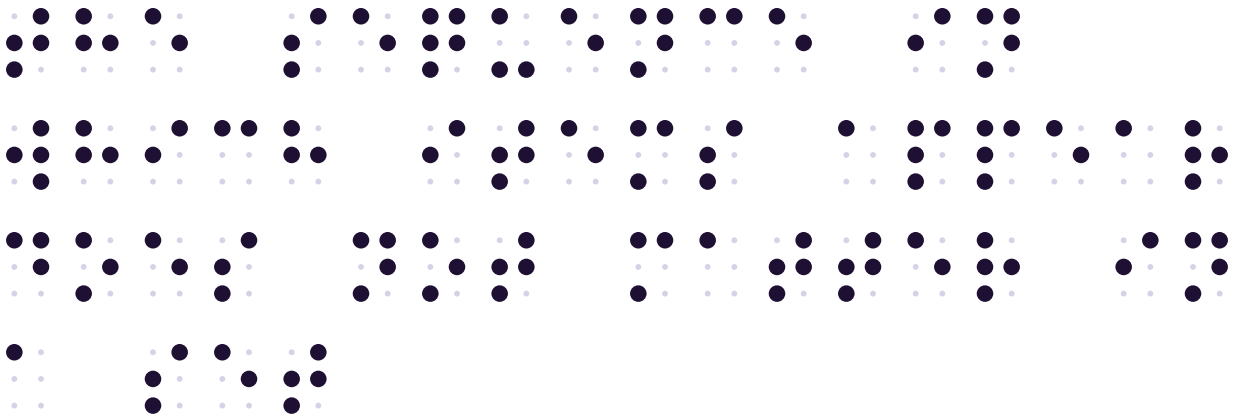

Key word 4
